Performance boosting enzyme for Commercial Laundry

Lavergy® Pro 104 L

Lavergy® Pro 104 L perfectly serves the dominant trends in the Commercial Laundry industry. Its superior cleaning performance in less harsh washing conditions enables energy savings and prolongs textile life. By keeping items “in the loop” longer rental textile owners can save resources and improve their business performance.

Performance Booster for Commercial Laundry – Lavergy® Pro 104 L

- Trial results in the BASF I&I Competence Center proved Lavergy® Pro 104 L offered excellent results on protease relevant stains in Commercial Laundry conditions.
- The superior results versus benchmark enzymes offer additional flexibility to optimize performance, formulation and wash conditions to meet the desired expectations.
- Lavergy® Pro 104 L meets the major needs of the industry, enabling savings of the major cost drivers, labor, energy, water and textiles.

We're happy to support you with our broad know-how and portfolio for this industry!
