Lavergy Pro® 104 LS- premium performance on protein based stains

Ensuring Premium Performance reaches the Consumer

Lavergy® Pro 104 LS offers premium performance on protein based stains. With built-in stabilization, the enzyme remains active longer even in tough liquid formulations and storage conditions. The result is a consistent washing experience which meets consumer expectations.

Performance and Stability for Liquid Laundry

- Ensures enzyme stability to meet the stain removal expectations of the consumer
- Enhances complex stain removal through improved secondary enzyme compatibility and residual activity
- Improves the environmental profile of detergents by eliminating the need for boric acid addition
- Supports formula concentration and simplification by reducing the requirements of other stabilizing ingredients

Lavergy® Pro 104 LS – the new solution for laundry
