## RHEOCARE® XGN - Suspending, Stabilizing, Thickening Polymer

Rheocare ® XGN is the new versatile Xanthan Gum suitable for a wide range of cosmetics applications.

It offers a great alternative to other xanthan grades due to its high electrolyte and ethanol tolerance and excellent clarity.

Cold processable and easy to use with no neutralisation stage, it is cosmos compliant, suitable for vegan concepts and oral care.

Check it out at: <https://www.carecreations.basf.com/>

You can find additional information about RHEOCARE® XGN and contact your local BTC partner directly using our website for your [industry](#).
