Time for Change: BASF believes sustainable palm is possible

2nd BASF Palm Dialog in London

BASF hosted its second Palm Dialog in April in London with 100 participants and even more online followers. On the occasion of in-cosmetics, sustainability experts from The Body Shop (Picture: Jason Matthews), Mibelle, Aldi South, Golden Agri, NGOs and non-profit organisations gave an outlook on chances for a rapid market changeover towards certified ingredients based on palm kernel oil. At poster stands BASF representatives discussed with participants operational requirements and market transformation, the inclusion of local people and key aspects to understand specifics of oleoderivatives.

Insights from the RSPO European Roundtable

More than 400 delegates from the palm supply chain attended the fifth RSPO European Roundtable in London in June. As an active member of the Roundtable on Sustainable Palm Oil (RSPO) since 2004, BASF supported the event as Gold Partner. Participants discussed innovations and partnerships to transform the market and how to balance sustainability with economic diversification and poverty alleviation.
