## Tinogard® - Powerful Stabilisers

### Strong solutions for a long lasting protection

- **UV light absorbers**  
avoid color fading, yellowing, viscosity changes and odor issues in transparent packaging
- **Unique ESQ® technology**  
which boost the efficacy of UV light absorbers
- **Antioxidants**  
high performant protection of formulations containing oxidation sensitive ingredients as oils, fats, waxes and fragrances
- **Non-yellowing BHT alternatives**

As a solution provider, BTC supports you to find out the best stabilization for your products!
