Cosmedia[®] Ace Dispersion Polymer

A Strong, Flexible & Modern Liquid Dispersion Polymer. Optimise your personal care formulation with an Ace!

Dispersion Polymer performances:

- Very good thickening power
- Strong emulsifying capability
- Widest pH range within BASF Skin Care polymer portfolio
- Quick swelling: can be added at any stage of the emulsion production process

Cosmedia[®] Ace benefits:

- Modern composition: Carrier emollient and activator from renewable source
- Distinct sensory benefits: velvety and caring effect delivered to emulsion
- Suitable for cold-processable emulsions with caring afterfeel
- Suitable for cost-effective personal care solutions

The ace for your personal care formulation!
