## GMP Certification in Düsseldorf

*The largest BASF site for cosmetic ingredients gains GMP Certification*

Düsseldorf fulfills the criteria of Good Manufacturing Practice (GMP)-Standards of the European Federation for Cosmetic Ingredients (EFfCI).

The certification confirms the compliance to strict guidelines for product quality and industrial requirements for industrial hygiene during the manufacturing processes. This is valid now for eleven sites world-wide where personal care ingredients are manufactured.

BASF aims to achieve the GMP Certification for all relevant sites for cosmetic ingredients by 2018.
